

Advanced Synergistic Approach to Healing Of Mind Body and Spirit

Energy Matrix Healing is the culmination of more than 25 years of dedicated Therapeutic Practice. Louise has developed a Quantum Healing Approach to dive into the Matrix, the Quantum field where all potentials are created. This Matrix permeates into every aspect of our lives and is influenced by everything and everyone. Louise works with your highest intentions in the present moment to bring your life into alignment with your truth and Soul Path.

Using Kinesiology Muscle Testing and/or Bioresonance Testing, she integrates Energy Matrix Healing with both orthodox and complementary medicine to restore the whole person to a state of wellbeing. The individual, holistic, multidisciplinary approach employed by Louise effectively addresses complex acute and chronic conditions on all levels: mental, emotional, physical and spiritual. Energetic, emotional, nutritional, physical and environmental aspects are all explored, YOU are considered, not your symptoms, yet during this balancing process, the symptoms naturally alleviate as YOU clear the underlying causes of dis-ease.

Whether you are currently experiencing physical pain and restriction such as RSI, slipped disc, sprained ankle, frozen shoulder or sciatica and/or mental emotional symptoms such as anxiety, depression, low self-esteem, poor confidence and loss of motivation, you are out of balance and not functioning at your optimum level.

Following a detailed consultation, the most effective therapy combination will be chosen, with the intention of restoring you to a state of wellness. You are unique and therefore no two people need the same therapeutic approach. Initial consultations last for 60-90 minutes and follow up sessions can be organised for between 30 minutes and 2 hours depending on your personal requirements.

Most Private Healthcare Companies are accepted, we can provide receipts or liaise with the healthcare company direct. We offer private referrals for self-funding MRI scans and private referrals to the Royal London Hospital For Integrated Medicine.
